1.0 TABLET OVERVIEW

2.0 HOW TO TURN THE TABLET ON

Press and hold the *Power* key.

3.0 HOW TO EXIT THE SLEEP MODE

Press the *Home* key to exit the Sleep Mode.

4.0 AVAILABLE APPLICATIONS

The two available applications are:

- PDF document reader (manuals)

- Calculator

5.0 HOW TO RETURN TO THE HOME SCREEN AND SWITCH BETWEEN APPLICATIONS

Press the *Home* key to return to the home screen or to switch between applications.

6.0 HOW TO USE THE DOCUMENT READER

To open the document reader, press the icon. This brings you to the available document menu.

From the document menu, select the desired document.

When a document is open, you can access the following tools:

- The scroll bar slider
- The search function
- The interactive table of contents

The scroll bar slider

The scroll bar slider allows you to browse quickly across the document, simply by sliding from left to right.

The search function

To activate the search function, press the magnifying glass icon. Then, using the keyboard, enter the TEXT you are looking for and press *DONE* to start the search.

The word you are looking for is highlighted each time it is found. Use the arrows in the upper right-hand corner to consult the pages that contain the search word.

Note: Since the application starts the search from the page where you are currently located, the messages "No further occurrences found" or "Text not found" could simply indicate that there is no occurrence beyond the current location. To check if the search word is in the preceding pages, press "Dismiss" and use the arrow at the top right-hand corner to search backwards (←).

To exit the search tool, press X in the upper left-hand corner.

The table of contents

To activate the table of contents, press the icon. Once the table has opened, select the chapter or section you want to access.
